WHO I AM

"Connecting the personality of a brand with the curiosity of an audience."

I am a third-year **B.Tech Computer Science and Data Science** student actively channeling my creative perspective into brand communication, content planning, and social media execution.

Currently working with **Seoul Sip's Social Media Management team**, I contribute to content brainstorming, creative campaign angles, and everyday community interactions. Working with a specialty coffee and cloud matcha brand has taught me how subtle visual aesthetics and intentional copy transform casual digital impressions into real-world brand loyalty.

I enjoy finding creative ways to communicate a brand's unique character. I aim to grow in **Content & Communication** and **Social Media Management**, bringing thoughtful execution, storytelling clarity, and genuine audience awareness.
